

Umber

Aspen

Crafted in Germany from premium hides, Aspen is an award-winning leather. Marked by an exquisitely soft hand and beautiful pronounced grain, it is a pure aniline, heavier weight leather that exudes casual elegance. After tanning, hides are left in their natural, open-pored state and then finished using real beeswax. The end result is a leather with an expressive surface and velvety hand that will develop a striking patina with wear and with age. Aspen is part of our Olive Tanned collection and is Declare, Red List free.

The Olive Tanned collection was the winner IIDA/HD Product Design Competition - 2017
